Siding Claims Services

## NOTICE

Your Property May Qualify For A Product Liability Claim!!!

Dear Neighbor,

I recently filed a claim with Siding Claims Services for the defective hardboard siding on my home. I was able to have one of their agents come to my home and identify my siding with no out of pocket expenses.

At the appointment the SCS representative explained the claims process to me and answered all of the questions I had. I was able to file a claim at the appointment and because it was a risk free consultation, Siding Claims Services gets paid only if I receive a settlement.

I was very pleased with the service I received and I think that they may be able to help you with your siding needs.
